Free Public Lecture

Informed Consent

What is it?

Why does it matter?

Whether it be a woman in labour wondering whether to get an epidural or a concerned family member asking about surgery that their elderly parent is to receive, how do you know when you have been given sufficient information to make a decision?

Dr. Franco Carnevale explains informed consent for both adults and children in a healthcare setting. Marie Serdyska will provide the socio-cultural context that sometimes makes obtaining informed consent a challenge.

Where: 5100, boul de Maisonneuve Ouest,
next to Vendome Metro Station, Free Parking

When: Wednesday, September 30

Time: 7pm-8pm

Speakers:

Franco A. Carnevale, RN, PhD, Nurse, Psychologist, Clinical Ethicist
Professor, Ingram School of Nursing, McGill University
Co-Chair, Pediatric Ethics Committee, Montreal Children's Hospital - McGill University Health Centre

Marie Serdyska, Coordinator, Socio-Cultural and Interpretive Services,
Montreal Children's Hospital - McGill University Health Centre
